

Device for remote control of Rest mode

Cod. INICOM

Introduction

Remote control for inhibiting and/or managing Rest mode. Installation on DIN rail (4 modules). Power supply 220/230 Vac, 50-60 Hz. 1.5 Ah LiFePO₄ rechargeable battery included; charging time 6H; minimum autonomy 8 H. 2 outputs, maximum number of controllable devices 150. IP20 protection rating, double insulation, operating temperature 0 °C ÷ 50 °C.

Technical specifications

Installation	DIN rail (4 modules)
Power supply	220/230 Vac, 50-60 Hz
Power consumption in W	1.5 W
Power absorbed in VA	2.3 VA
Battery	LiFePO ₄ 3.2 V 1.5 Ah
Autonomy	8 H
Total charging time	6 H
Max. wire length	500m / section 1mm ²
Number of Outputs	2
Max. number of controllable devices	150
IP protection grade	IP20
IK protection grade	IK07
Insulation class	II
Operating temperature	0° - 50°C
Compliant with regulations	EN 60598-2-22
